# **PERSONAL CARE** product guide

## Galolive®

Galolive are naturally derived, PEG-free, non-ionic emulsifiers, emollients and surfactants that provide robust, functional properties while maintaining the mildness and skin compatibility of Olive Oil.

The emulsions created have a shiny surface, a fresh and original feel with a liquid crystal lamellar structure.

COSMOS CERTIFIABLE, DERIVED ENTIRELY FROM RENEWABLE RAW MATERIALS. DERMATOLOGICALLY TESTED.

### • Galolive® Ten

- flakes
- percentage of use 4-6%
- hot process
- light emulsions with a velvety feel, hand-creams, body butters
- INCI: Polyglyceryl-3 Cetyl Ether Olivat Succinate

### • Galolive® Bio Ten

- flakes
- percentage of use 4-6%
- hot process
- light emulsions with a velvety feel, hand-creams, body butters
- COSMOS approved
- INCI: Polyglyceryl-3 Cetearyl Ether Olivat

### • Galolive® 30

- viscous liquid
- percentage of use 0,5-10%
- cold or hot process
- water soluble Olive Oil, mild surfactant for toiletries, co-emulsifier, emollient and solubilizing agent
- INCI: Olive Oil PEG-7 Esters

### • Galolive® O/W

- viscous liquid
- percentage of use 4-6%
- cold or hot process
- fluid emulsions, gel-creams, bath-creams, wet-wipes
- COSMOS approved
- INCI: Polyglyceryl-4 Oleyl Ether Olivat

### • Galolive® W/O

- viscous liquid
- percentage of use 5-10%
- cold or hot process
- nourishing emulsions easily absorbed, night-creams, sun lotions, foundations, tattoo-creams
- COSMOS approved
- INCI: Polyglyceryl-3 Triolivate

### • Galolive® WS

- viscous liquid
- percentage of use 2-10%
- water soluble Olive Oil, mild surfactant for shower gel, shampoo, micellar water, make-up remover
- COSMOS approved
- INCI: Olive Oil Polyglyceryl-3 Esters
